

## 2024 Page Annual Conference

**Daniel Yang**  
**Vice President of Artificial Intelligence and Emerging Technologies, Kaiser Foundation Health Plan, Inc. and Hospitals**

Dr. Yang is spearheading Kaiser Permanente's work to advance responsible AI. Under his leadership, Kaiser Permanente is plotting a course of responsible AI use that advances the organization's mission of providing high-quality, affordable care for its 12.6 million members and improving the health of its communities. In his role, Dr. Yang ensures that the organization is

applying AI in ways that are safe, dependable, accurate, and equitable. Prior to Kaiser Permanente, Dr. Yang was the program director of patient care at the Gordon and Betty Moore Foundation, where he founded and led a \$120 million philanthropic program focused on diagnostic excellence.

Dr. Yang is a practicing internal medicine physician. He completed his undergraduate and medical degrees at the University of Illinois Chicago, his internal medicine residency at the University of California, San Francisco, and a fellowship in health care systems design at Stanford University.
