

## 2024 Page Annual Conference

**Helen Giles**

**Managing Director Environmental Sustainability, Southwest Airlines**

Helen Giles leads Environmental Sustainability at Southwest. She drives the Company's environmental sustainability strategy, Nonstop to Net Zero, which outlines the carrier's path to net zero carbon emissions by 2050 and a more sustainable future. Helen stepped into her role in 2021, standing up Southwest's Environmental Sustainability function, which also includes guiding Southwest's portfolio of environmental initiatives and

engaging externally in environmental policy and partnerships. She works to ensure Southwest achieves its near-term and long-term climate goals, and its efforts to do right by our Planet and Company in the communities Southwest serves and beyond.
